

# What is the Multi-Tenant solution and what are its benefits?

Multi-Tenant is a Healthcare Unified Technology (HUT) enhancement that delivers content from multiple sites into one, unified digital experience. With a simplified user interface, and updated technology, multi-tenant gives consumers access to the most relevant healthcare information to suit their needs.

## Benefits of Multi-Tenant

SUPPORTABLE, STANDARDIZED  
MODERN WEB DESIGN

UP-TO-DATE ONLINE MARKETING  
AND COMMUNICATION TOOLS

CONSISTENT, SCALABLE  
RESPONSIVE TECHNOLOGIES

TRUSTWORTHY, TIMELY  
HEALTHCARE INFORMATION

## There are two types of Multi-Tenant sites

### 1 UMBRELLA SITES

A platform that contains *multiple* sites and data on a single host

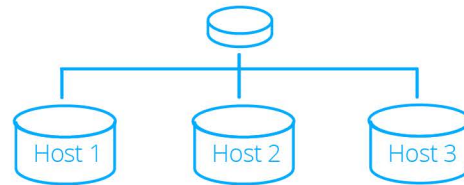

Example: sahealth.com

### 2 MARKET SITES

A *single* site pulling data from multiple hosts

Example: tristarhealth.com

## Features

### LOCATION DETAIL PAGES

With the location detail page you can quickly create and display individual landing pages for each location. This page can include photos, a subnavigation, unique content, multiple appstacks and related content.

### INTEGRATED WITH CRM MODULES

Multi-Tenant is integrated with the following CRM Modules: Find a Doctor, Make an Appointment and Classes & Events.

### ENHANCED ER WAIT TIMES

On the Multi-Tenant solution you ER Wait Times will be rolled up into one feed! From this single feed you can sort by location, ER wait time and your current proximity.

### UPGRADED NEWSROOM FEATURE

With an upgraded Newsroom feature, you can sort by date, news type, and tags. Opt in to show social engagements as well. You also have the option to display roll-up content from video, news & events!
